

Park City Resort - Vail Resorts

Employer Description:

Nestled at 6,900 feet above sea level, the Park City mountain village was developed when the first ski lift was constructed over 50 years ago in 1963.

Since then, many changes and events have taken place to re-write Park City's future as a top-ten ski destination—including hosting the 2002 Olympic Winter Games and more recently, the creation of the largest ski resort in the United States.

During Summer 2015, the Resort undertook the largest resort improvement project in the history of American skiing, one that linked it with neighbor Canyons Resort to create the United States' largest ski area. Park City bustles with activities year-round with three distinct base areas, nine hotels, thrilling family adventures, and more than two dozen restaurants.
